Announcement for update to AMS3044G

Thank you very much for your continued business. We would like to inform you that we will update the standard operation number of our Magnetic particle testing material that conforms to AMS 3044 from F to G as mentioned below.

Sincerely yours,

Note

1. Reason for change

We will update the standard operation number from F to G with the revision of AMS 3044.

2. Target products

- Super Magna Fluorescent Magnetic Particle LY-10
- Super Magna Fluorescent Magnetic Particle LY-20P
- Super Magna Fluorescent Magnetic Particle LY-20
- Super Magna Fluorescent Magnetic Particle LY-30
- Super Magna Fluorescent Magnetic Particle LY-40
- Super Magna Fluorescent Magnetic Particle LY-50
- Super Magna Fluorescent Magnetic Particle LY-2500

3. Change point

The standard operation number described in the certification will be updated from F to G. There are no changes to the test items due to the revision.

4. Other

We will update from products manufactured on or after June 1, 2020.
