

Dear Valued Customers,

May 2025  
MARKTEC Corporation  
Quality Assurance Dept

Notice of change to " Y-type strainer" for Printing and Marking equipment

Thank you very much for your continued business. We would like to inform you that the Y-type strainer used in our printing and marking equipment will be changed as follows.

Sincerely yours,

Note

1. Target products

- Paint Jet Printer TP-1000, TP-2000, TP-3000 series
- Shot Marker S10, S100, M20, M30 series
- Customized Paint Jet Printer, Customized Shot Marker
- Spares : Y-type strainer YBS type 8A/10A/15A

2. Reason for change

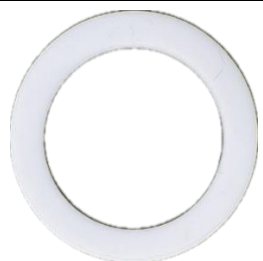

Due to the manufacturer's discontinuation

3. Change point

« Before change »

Y-type strainer YBS type	Element for YBS type	Gasket for YBS type
		

«After change»

Y-type strainer YBCS type	Element for YBCS type	Gasket for YBCS type
		

## 4. Applicable date

Adaptation to our printing and marking equipment is scheduled for May 2025.

## 5. Maintenance support

Sales of spare parts for elements and packing for Y-type strainer YBS type 8A/10A/15A before the change will be discontinued as soon as the stock runs out.

The elements and packings are not interchangeable before and after replacement. When renewing a Y-type strainer, please replace it with a Y-type strainer YBCS type.

For details, please refer to the list of Y-shaped strainers and spare parts in Table 1.

## 6. Others

- This change does not affect the product performance.
- If you have any questions or concerns, please contact our sales representative.
